Poor sales force Beacon Ford to close

By JAN RAVENBERGEN
of The Gazette

A liquidation sale began yesterday at Beacon Ford in Baie d'Urfé.

After the 25 new cars and 16 demonstrators available are driven away, Beacon will shut down, closing the books on a business that has been a West Island fixture since the mid-1960s.

A total of 35 jobs will disappear.

"It was a question of either putting more money into the business or getting out," owner James Smith said yesterday.

At least 20 new-car dealerships in the Montreal area have folded during the past year. Some have gone bankrupt and others, like Beacon, have chosen the voluntary liquidation route.

Reasons aren't hard to find — the recession, high interest rates and the

increasing popularity of Japanese imports amid a slump in the total new-car market.

But few of those who folded appeared as well-entrenched as Beacon Ford Sales (1976) Ltd.

Until June, even with depressed sales, "we were in the black" on a year-to-date basis, Smith said.

Beacon was properly financed and also enjoyed a better-than-average reputation for service. More than half of new-car sales consisted of either repeat or referral business, Smith said.

Beacon also had the advantage of being located in the traditionally privileged area near the intersection of Morgan Rd. and the 2-20 Highway.

"Jamie is not a hit-and-run operator," Reel Rheault, assistant manager for Québec at Ford Motor Co. of

Canada Ltd., said yesterday. "He gave it his best shot."

So why shut the doors?

"We were losing money and couldn't see a prospect in the near future of turning things around," said Smith.

"I can't see, quite frankly, a turn (in the market) in 1983," he added.

Smith was not operating extravagantly. He started a heavy cost-cutting program in July, 1981.

Smith said local Member of Parliament Hal Herbert told him in July that what the domestic car business needed was a stronger lobby in Ottawa. Herbert also informed him there were no federal government programs to assist car dealers like himself.

"What really hurts is that we didn't run a bad business."

Smith insisted he's not bitter — al-

though "my gut feeling is to get out of the retail end of the car business."

Beacon's recent sales figures tell the tale.

Smith, who started working for General Motors of Canada Ltd. as a mailboy in 1964, bought Beacon in September, 1976, from John Bourke. In 1977, Beacon sold about 575 new cars and 180 used vehicles.

During its peak year of 1974, Beacon racked up 804 new-car sales.

In 1981, new-car sales dropped to 440 and sales of used cars reached 165.

By the end of last month, when Smith made the decision to shut down, 1982 sales were worse than anemic — just 275 new cars and 78 used. Last year at this stage, the figures were 363 and 154.

Fire Station No. 52 300, pr. Surrey, Baie d'Urfé

The wood is blue both sides and 38mm in diameter

The station is located in the former Beacon Ford car dealership on the south side of Surrey Drive east of Sunny Acres. The apparatus doors face north.

I NEED YOUR HELP

While scanning woods and checking the listings I find that there are a lot of woods that are listed but no one seems to have. From time to time I will be submitting a list of woods to see if someone has one to see if they even exist. A lot of woods were listed from information that was supplied to me or taken from other sources. I am endeavoring to make any corrections to the listing and need help, so if you see something that you think is wrong please advise me so I can check it and correct it if it is wrong. Any of the woods that I list I do not have and need a colour scan for the catalogue your help will be much appreciated.

Hello Darryl:

I have received your letter expressing your son's interest in what we called "The Lambert Dollar". This wooden disc was the idea of Mr. Pat Lambert, a member of the congregation, to commemorate the 100th anniversary of the establishment of St. Barnabas as a separate parish within the Diocese of Niagara. Prior to that time, we were a mission of St. George's Anglican Church, having been first founded in 1870 by the Reverend Henry Holland the then rector of St. George's. The disc sold for a dollar as a means of fund-raising for the anniversary. As the parish archivist, I have one of these old "dollars" in our archives. I will do a survey of the parishioners to see if I can come up with any more. I'll be in touch.

Father Bill+

The 500 of the woods were issued in 1979 and were 50mm in diameter and black both sides.

From Darryl Atchison

Just think this is your chance to get your name in print

Send me an article however short and I will give you credit for it in Timber Talk. Tell us how you got started collecting, your greatest find, about a wood you issued and why, etc. There is no limit to what you can write about and have it in Timber Talk so that other collectors can share your knowledge. If it needs graphics or editing don't worry I will take care of that I just need something to work with, otherwise I will have to start publishing articles not related to wooden money or tokens to fill the pages. With 100 members if half wrote an article that would give me about four each month to put in Timber Talk so help out this poor, under paid, over worked editor. You can send it by snail mail, e-mail, or just hand me something when you see me at a meeting or convention. As the editor of Timber Talk we welcome ads from our members so if you have some spare woods why not run a small auction or just a list for sale or trade, you might be surprised by the results. This would be a great way to improve your collection. You might also submit a list of woods that you are after to add to your collection and reach all the members at one time.
